Subject: Camera Access Request from Lompoc CA PD

*** EXTERNAL EMAIL: Please use caution when opening links or attachments.***

The Lompoc Police Department now has access to the Flock Investigator Tool. I request your agency's approval for the Lompoc Police Department to access your cameras. Thank you, Captain Kevin Martin 805-315-7079

Lompoc CA PD has requested access to your Santa Maria CA PD's Flock Safety camera footage for review in the event of a crime in your community. Granting them access now may lead to quicker results should a crime occur.

To share access to your cameras, you must add Lompoc CA PD to your access list:

1. Open User Management
2. Click on the "Share" button next to the networks list
3. In the "Cameras to Share" dropdown, select the network you would like to share
4. In the "Share with" dropdown, select Lompoc CA PD
5. Click "Save"

As the owner of your footage, you can revoke this access at any time. If you have questions or need further assistance, please reply to this message or email support@flocksafety.com.

Thanks for being a part of the Flock.
